

New to Jensen

THE C-V8 MK III & THE COMMANDERS CUP

This introduction truly claims double congratulations. The latest version of the thoroughbred Jensen C-V8 is docile but powerful—sleeker and more luxurious than ever before.

A brilliant debut! For 24 hours continuously on the tight Snetterton Circuit a standard Mark III achieved the remarkable average of 79.00 m.p.h., covering 1,866 miles, (subject to official confirmation), requiring only refuelling. For this high speed, trouble-free endurance test, Jensen takes the Commanders Cup in its very capable stride.

A true symbol of speed, safety and comfort.
