

Triplex Safety glass is fitted front, back and sides in the Jensen Mark III. Standard equipment for this remarkable car includes:

A Triplex Electrically Heated Rear Window which never mists or ices up.

A Triplex Laminated Safety Glass Windscreen which, if cracked, won't craze, collapse or cause loss of visibility. You wouldn't need to stop and it would last as long as you needed it. Until you found time for a replacement, in fact.

Triplex Toughened Safety Glass Side Windows for a full measure of safety.

Triplex Safety Glass Company Limited, 1 Albemarle St., London, W.1.

Fitted all round - Triplex Safety Glass
