interceptor and FF

JENSEN POWER

With a purr like a cat, and the strength of a lion, the Jensen provides you with all the power, dignity, and exhilaration you could wish for.

Its astonishing power gives you a rapid 0-70 m.p.h. in just 11.2 seconds. Safe—supremely

comfortable—and highly expensive—because the Jensen is **hand built** by men who know a great deal about motor cars.

If you would like to try JENSEN POWER, just 'phone us and we will arrange a demonstration and test drive anywhere in Britain.

Brian Eldridge Ltd.
