Jensen Car Club of Switzerland

Introducing . . .

The Jensen Interceptor S4

After the unfortunate demise of Jensen Motors Ltd. in 1976, all but the most optimistic feared that the world famous car they produced, the Interceptor, would never be produced again.

Fortunately for discriminating motorists around the world, a small section of the original company remained, and as Jensen Parts & Service Ltd., continued to offer existing Jensen owners the technical backup, parts, and service/restoration facilities that enable many Jensen vehicles to continue to outshine the competition, both on the road, and at classic car shows.

With a staff of fewer than 50 ex-Jensen Motors personnel, and with a new name, Jensen Cars Ltd., this small but highly efficient company is now proud to present, at the 1984 International Motor Show, the Jensen Interceptor Series Four (S.4). Totally hand built, and updated, to the highest standards of the car maker's craft, just 12 per year are planned. A matched pair are on show, a Saloon, and a Convertible, and quite naturally as befits a vehicle of this nature, the factory can produce to a customer's choice an infinite range of options, additions, and colour combinations. In fact we would prefer to work with the customer to arrive at a final combination which would be both practical and original, and ensure that what would already be a "collector's item", would be even more enhanced.

We are also proud to announce that Charles Follett Ltd. of London have been appointed sole UK distributors of the new Jensen Interceptor S.4, and naturally the staff at this prestigious company, which is the oldest and most experienced Jensen outlet in the world, can handle all the details if the customer so wishes.

We thought it would be fitting, in this our Golden Jubilee year to use some wording from a pre-war Jensen sales brochure, which, almost 50 years later we are still committed to upholding:

A Jensen.

Owning it says more about you than you could say about yourself.

Other people's reactions prove it.

Because a Jensen is hand built to reflect your personality:

Showing the public image others want you to have.

Preserving a private face that's yours alone to enjoy.

Arrange a test drive with your local Jensen dealer. You'll sense the quiet authority of the car. And see it in the faces of the people you pass.

Jensen Interceptor S.4, the Saloon or the Convertible, both will give you more per gallon than you'd expect. And we don't just mean in miles.

Sales Information – Jensen Interceptor S.4 (Series Four)

Jensen Car Club of Switzerland

MODEL VARIANTS:

Saloon and Convertible

ENGINE:

90° Vee 8. O.H.V. with hydraulic tappets.

BORE: 4.00 in

STROKE: 3.58 in

CUBIC CAPACITY: 360 cu.in (5,900 c.c.)

COMPRESSION RATIO: 8.6:1

CRANKSHAFT: Fully balanced, 5 main bearings. Fitted with torsional vibration damper.

LUBRICATION SYSTEM: Internally mounted rotor type pump with separate full flow filter.

FUEL SYSTEM: Mechanical pump. Filter in fuel line.

CARBURETTOR: Four – Barrel with automatic thermostatically controlled choke. Flashing low fuel level warning light operative below 3 gallon (Imp), or 13 litres.

TANK CAPACITY: 20 gallons, 91 litres. Large capacity paper element air cleaner.

IGNITION: Electronic automatic centrifugal and vacuum advance. Ballast resistor for initial spark boost.

COOLING: High pressure (13 p.s.i.) system with pellet type thermostat. Twin thermostatically controlled electric cooling fans.

EXHAUST SYSTEM: Stainless steel.

TRANSMISSION

High performance 3-speed automatic, with torque converter. Over-riding hold control. Part throttle kickdown. Centrally mounted quadrant.

OVERALL RATIO: 1st 7.50:1
2nd 4.44:1
3rd 3.07:1
Reverse 6.74:1

Transmission oil cooler incorporated in radiator side tank. Open propeller shaft. Hypoid rear axle incorporating limited slip differential.

AXLE RATIO: 3.07:1

SUSPENSION

FRONT: Independent coil and wishbone with telescopic type dampers. Stabiliser bar.

REAR: Semi-elliptic dual rate springs with rubber button interleaved separators. Telescopic type dampers and Panhard rod.

STEERING

Power assisted. 15 in. diameter leather covered steering wheel with 2 in. reach adjustment. 3.4 turns lock to lock. 17.1:1 ratio. Turning circle 38ft. Steering column lock.

WHEELS AND TYRES

Aluminium alloy cast wheels with Dunlop D7 70 series 215VR15 tubed tyres for sustained speeds up to 110mph without increasing pressures. Tyres fully suitable for speeds of 130–140mph. Spare wheel in carrier underneath luggage compartment.

BRAKES

Hydraulically operated self-adjusting Girling ventilated disc brakes on all four wheels. Separate systems for front and rear brakes with tandem master cylinder and servo assistance. Gravity conscious valve in rear system to prevent rear wheel lock-up. Swept area 412 sq.in. central handbrake lever operates self-adjusting brakes on rear wheels. Brake pad wear indicator.

ELECTRICAL EQUIPMENT

12 volt 78 amp alternator with 6 silicon rectifiers. Transistorised voltage regulator. Battery "Sealed for life" 68 A/H. Four 5¾in. Quartz Halogen headlights. Side and dual intensity rear lights. Reversing light operated by switch incorporated in gear selector mechanism. Number plate, engine compartment and boot illumination lights. Two-level instrument lights. Twin rear fog lights. Self cancelling turn indicators with warning lights. Red warning lights on door trailing edges. Hazard flasher. Interior lights with courtesy switches on doors and thermal delay (approx. 40 seconds). Steering column lock illumination. Digital electric clock and illuminated cigar lighter. Combined twin bladed two-speed self parking electric windscreen wipers with anti-lift blades and infinitely adjustable intermittent wash/wipe. Windtone and air horns with changeover switch. Electrically operated screen washers, windows and fuel lid. Driver controlled electric passenger door lock. Electric demister/de-ice for rear window (saloon only) electrically operated driver door mirror with built-in demist.

HEATING AND VENTILATION

AIR CONDITIONING: Engine driven compressor with on/off switch and variable temperature control provides cool and de-humidified air to ventilation system.

HEATING: 4½ kW heater unit with 3-speed (1-RAM, 1-Medium speed, 1-High speed) fan motor, for interior heating and windscreen demist/defrost. High level (base of windscreen) air intake.

VENTILATION: Throughflow system with extractor vents in rear quarter panels. Four individually controllable fresh air outlets at face level delivering either refrigerated, or ambient temperature air.

JACKING SYSTEM

Bevelift type system operating in conjunction with special lifting points.

STANDARD EQUIPMENT LOOSE ITEMS

Handbook, 2 sets of Keys, Key Pouch, Maplight, First Aid Kit, Tool Kit c/w Gloves, Wheel-nut Wrench, Jack, Book – "The Jensen Interceptor", Car Cover and Bag. Tonneau Cover and Bag (convertible only).

OPTIONAL EXTRAS

Any exterior colour – to order

Any interior colour, or choice of colours, given availability – to order

Alternative sound systems, to customer choice.

Passenger door electrically operated (and demist) door mirror.

Rear inertia reel seat belts.

NOTE: The nature of manufacture of this vehicle is such that any special features, or additions, will be considered by Jensen Cars Ltd., and normally the customer's choice can be accommodated.

PERFORMANCE

Maximum speed, 140mph. approx. Fuel consumption, per imperial gallon, 15 miles approx.

BODY

Steel body mounted on tubular chassis giving four-seater accommodation. Sundym glass. Laminated windscreen. Adjustable interior anti-dazzle safety rear view mirror. Front inertia reel safety belts. Rear seat belt bosses pre-fitted. Front seats fitted with electrically operated reclining mechanisms, incorporating quick release for access to rear seats. Built-in electric seat warmers on front seats. Pillar type adjustable headrests to front seats with detachable cushions. Connolly hide used throughout interior. Locking companion box and glove box. Covered pockets in rear armrest. 12 cu.ft. (saloon), 11 cu.ft. (convertible) luggage compartment with spring loaded self-supporting lid. Electric/hydraulic operated roof and electrically operated rear quarter windows on convertible. Fire extinguisher. Interior fully carpeted with best Wilton carpet.

Jensen Car Club of Switzerland

INSTRUMENTS

Speedometer, electric impulse type Tachometer, battery condition indicator, oil pressure, coolant temperature and fuel gauges. Warning lights for high beam, low fuel, handbrake/brake fluid/brake pad wear, oil pressure, fuel filler door, safety belts, rear fog lights and rear window demist, saloon, (mirror demist on convertible).

RADIO

Standard radio fitted, Pioneer KEH9300 stereo/radio cassette player.

KEY FEATURES: High power output \pm fader control for 4 speaker system - integrated 5-band equaliser - Dolby N.R. - Metal tape facility - Auto tape slack canceller - Key-off release/Key-on-play - Quartz phase locked loop synthesiser tuner - Auto reception control system - 18-station presets (6 FM, 6 MW, 6 LW) - Auto Up/Down seek tuning - Remote seek control - Multi information LCD tuner display. 4-speaker (standard) system fitted, front (1 in each door): Pioneer TS-1222 dual cone. Rear (1 in each rear quarter panel, rear parcel shelf in convertible): Pioneer TS-1612.

Separate electric aerial.

* Power output continuous – 13W/Channel
Power output maximum – 20W/Channel

DIMENSIONS

LENGTH: 15ft 4½in.

WIDTH: 5ft 9in.

WHEELBASE: 8ft 9in.

TRACK, FRONT: 4ft 8¼in.

TRACK, REAR: 4ft 9¾in.

HEIGHT: 4ft 5in.

WEIGHT: 3,900lbs. Kerbside (approx.)

WARRANTY

12 months.
