

Avis rents the Jensen for the fast mover.

The kind of man who knows all about the Interceptor's phenomenal pulling power. He realises just what this magnificent machine can do for him.

So he doesn't have the kind of money that would put an Interceptor with its seven litre Chrysler V8 engine in his garage permanently.

Who cares.

With an Avis desk just around the corner you can rent all the motoring luxury in the world... by the day, week or month. Wherever you are.

When ever you want to.

And an Avis credit card will get you what you want. Instantly. Avis has an immaculate Jensen Interceptor with all the jet set trimmings, like an eight track stereo system, just waiting to purr you away to paradise.

The Interceptor has what it takes to conquer the competition. Have you?
